EINE INTERESSANTE EXKURSION NACH BERCHTESGADEN:

The **Dokumentation Obersalzberg** is a place of guided learning and remembrance designed by the Institut für Zeitgeschichte, Munich – Berlin on behalf of the Free State of Bavaria. It offers the visitor to this historic site the opportunity to study and reflect on the history of Obersalzberg and the history of National Socialism. To achieve this goal the permanent exhibition is accompanied by special exhibitions, lectures and events as well as a comprehensive educational program. Dokumentation Obersalzberg thus serves to reflect on the National Socialist past.

Second seat of government of the Third Reich and place of propaganda:

Obersalzberg is an approximately 900 to 1000 metre high mountain ridge with meadows and forest which rises up from the eastern edge of Markt Berchtesgaden to the Kehlstein (1,834 m) and the "Hoher Göll" (2,522 m). Since the second half of the 19th century the Obersalzberg had been a mountain village with small farms and some degree of tourism. It was Hitler's holiday retreat as of 1923, but 10 years later he purchased his own property, namely "Wachenfeld House", which he had been renting since 1928. After the seizure of power this modest building was too small for what it was now needed for, so that Hitler had it rebuilt and extended, turning it by 1936 into a sizeable residence, the so-called Berghof. This was the start of the transformation of the remote alpine village into the so-called *Führer's* off-limits area with buildings that were intended to impress as well as others of a functional nature within the local infrastructure. Alongside Hitler Hermann Göring, Albert Speer and Martin Bormann had their own houses on Obersalzberg. The local inhabitants, in most cases families who had lived here for generations, were driven out. And so it came about that the remote alpine village gradually turned into the "*Führer's* security zone", a second centre of power alongside Berlin, where important political decisions were planned and taken, including those about war and peace and the Holocaust. This explains why Obersalzberg was far more than simply Hitler's holiday retreat.

„Dokumentation Obersalzberg“

Salzbergstr. 41
83471 Berchtesgaden
Deutschland
